Jalandhar, India

Summary

Full-stack developer skilled in JavaScript, TypeScript, and C++ with experience building AI-powered web apps, Chrome extensions, and real-time systems. Strong communicator and analytical thinker with a focus on clean, scalable code and API integration.

Projects

- **DevTimeCapsule – AI Developer Journal Chrome Extension** (*Github*) 07/2025 - 07/2025
  JavaScript, Chrome APIs, Gemini API, Web Extension APIs
  - Developed a Chrome extension that tracked daily developer activity (tabs, code, questions) with 95% accuracy.
  - Integrated Gemini API to generate AI-based learning journals, improving user reflection time by 60%.
- **Energy-Efficient CPU Scheduling Algorithm Visualizer** (*Github*) 03/2025 - 04/2025
  TypeScript, ReactJS, recharts, TailwindCSS
  - Designed an energy-efficient CPU scheduling visualizer supporting 4+ algorithms (FCFS, SJF, Round Robin, Priority) using real-time JavaScript-based charts.
  - Applied critical thinking to stimulate 10+ task executions to display estimated energy consumption, turnaround time, and CPU idle cycles per algorithm.
- **Customer Feedback Analyzer** (*Github*) 03/2025 - 04/2025
  Express.js, MongoDB, Chart.js, HuggingFace API
  - Built a sentiment classification system using Hugging Face API, achieving 92% classification accuracy on test feedback.
  - Visualized over 50+ feedback entries via interactive pie charts to support data-driven decisions.
- **Museum Booking Chatbot System** (*Github*) 03/2025 - 04/2025
  PHP, MySQL, JavaScript, PHPMailer
  - Collaborated in building a chatbot-based ticket booking system with secure login, payment integration, and 3 booking flows, tested across 10+ scenarios.
  - Automated email confirmations and digital receipts using PHPMailer, reducing manual email handling by 100%.
- **Meet-up Website** (*Github*) 05/2024 - 06/2024
  Express.js, CSS, MongoDB, Node.js
  - Developed a real-time event platform with 4+ functional modules (profiles, events, news) using Node.js and Express.js enable seamless multi-user communication and event coordination.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor's - Computer Science and Engineering - 9.15 CGPA *2023 - 2027*
- **Lucknow Public School And Colleges** Lucknow, Uttar Pradesh
  Higher Secondary Certificate - CBSE - 93.4 % *2021 – 2023*
- **Jesus & Mary School And College** Balrampur, Uttar Pradesh
  Secondary School Certificate - ICSE - 92.8 % *2019 - 2021*

Skills Summary

- **Languages** JavaScript, TypeScript, C++, SQL, PHP
- **Libraries & Frameworks** React, Node.js, Express, TailwindCSS, Next.js, Socket.IO, WebRTC, WebSockets
- **Databases** MySQL, MongoDB
- **Core CS Concepts** Data Structures, Operating Systems, Networking, DBMS, Software Engineering
- **Technologies & Domains** Generative AI, Large Language Models (LLMs), Linux
- **Tools & Platforms** VSCode, Postman, Git, GitHub, Chrome DevTools, Docker
- **Soft Skills** Communication, Teamwork, Adaptability, Analytical Thinking, Continuous Learning

Certifications

- **The Frontend Developer Career Path** - Scrimba
- **The AI Engineer Path** - Scrimba
- **NPTEL Cloud Computing** - NPTEL
- **Problem Solving (Intermediate)** - HackerRank
- **The Bits and Bytes of Computer Networking** - Google
- **Introduction to Hardware and Operating Systems** - IBM
- **Responsive Web Design** - freeCodeCamp

Achievements

- Active LeetCode user with 1,466 contest rating and 150+ DSA problems solved
- Contributed to an open-source project on GitHub by adding a Javascript feature; PR successfully merged
- Secured Top 10 rank in a university hackathon for building an AI-based solution
